

Title in your
journal :
Summer Science

Write a paragraph about something you did during summer that was scientific. Anything might be science related from using a cell phone to wakeboarding to rock climbing to riding a roller coaster to breaking an arm.

Write a second paragraph explaining what was scientific about the activity or event. Be sure to give at least 2 details of how it was science related.

This must be written in your journal and brought
to class Thursday August 13.
